Ms. Ginny Stemhagen
Learning Harbor, Inc.
Princeton, NJ 08543

Dear Ginny,

I am writing this testimonial to review what a great solution Learning Harbor has been for us at St. Joseph's. We implemented Learning Harbor as a web-based method for providing annual mandatory education for all staff in 2007. Having this system available to employees 24/7 via any computer with an Internet connection has exceeded our expectations. This system is very user-friendly. It is cost effective, easy to implement and we received many positive comments from staff. Staff liked the ease-of-use and the accessibility. Documentation of employee completion of important topics was easily managed, and remains a key feature for us.

Our focus for 2008 will be to expand our catalogue of courses available to staff. Learning Harbor is a way to make sure thousands of employees from multiple work sites get the same information about important topics. It is easy to track completion and monitor compliance. I highly recommend Learning Harbor as a simple solution to the complex issue of mandatory annual education.

Sincerely,

A handwritten signature in red ink that reads "Nancy Konzelmann".
